⁵ Caller ID spoofing is a service that allows a caller to masquerade as someone else by falsifying the number that appears on the recipient's caller ID display. The scammer usually calls into a financial institution posing as their victims identity or account or to completely take over a victim's account.

⁶ Vishing is the act of using the telephone in an attempt to scam the user into surrendering private information that will be used for identity theft. The scammer usually pretends to be a representative from a legitimate business, and fools the victim into providing credit card or personally identifying information that can be used to take over a person's account or to steal their identity.
